DETAILED ACTION

This Office action is responsive to communication received 01/15/2004 – application papers filed and IDS; 05/03/2004 – Oath; 11/29/2004 – IDS.

Claims 1-20 are pending.

Following is an action on the MERITS:

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 16 is rejected under 35 U.S.C. 102(b) as being anticipated by Tseng ('407). Note the attached highlight of Figure 2 showing that Tseng includes a face member having a heel, toe, top rail and front surface along with a first arm, second arm and central member. The central member merges with the rear of the striking surface and includes a top edge with opposed side portions.

Claims 1-15 and 20 are allowable over the prior art references of record.

Claims 17-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Note the central area to the rear of the face shown in Caiozzo. The references cited in Design Patents ('109) and ('110) are deemed pertinent to this
